

BioPro - CATTLE

YOUR HERD'S HEALTH, OUR PRIORITY

Resilient to Challenges

Optimized Digestion,
Maintaining a Healthy
Rumen Microflora

Increase Milk Yield &
Better Quality

BIO PRO is a scientifically advanced blend of Bio Functional compounds designed to deliver a powerful, multi-functional solution. This unique blend supports Immune Health, Enhances performance consistency which drives milk production efficiency— Helping you achieve more profits with every cycle.

+ YC =

GROWTH

PRODUCTION

MAINTENANCE

BIO PRO is a synergistic blend of Hydrolyzed Yeast, Yeast Culture, Hydrolyzed MOS, β -Glucans, Chitins, and Nucleotides, available in two convenient forms: Powder and Liquid. Because the product is in a bio-active, free-form state, its functionality and efficacy are up to 10x greater than conventional insoluble MOS and β -Glucans.

Key Benefits :

- When BIO PRO is included in milk replacers and starter feeds, producers have reported a noticeable reduction in the incidence, severity, and duration of cryptosporidiosis. Additionally, lower rates of Bovine Respiratory Disease (BRD), improved weight gain, and enhanced feed efficiency have also been observed.
- Bio Pro , Deliver a Optimum dose of Hydrolyzed Yeast + Yeast culture + Yeast Extracts which support Mycotoxin Binding, Strengthen Immunity & Maximize MILK YEILD
- Immune readiness: Primes the immune system for rapid response before health challenges arise.
- Cost-effective solution: Gives Benefits of Functional Yeast Hydrolysate, Culture & Extracts in one single product.
- Healthier Calves: Supports gut health and helps reduce the incidence, severity, and duration of scours.
- Healthier Cows: Promotes udder health by lowering somatic cell counts in lactating cows.

RECOMMENDED DOSAGES OF BIO PRO CATTLE

	GRAMS / HEAD / DAY				
	Dry & Transition Cow	Lactating Cow	Milk Replacers	Calf Starters	Heifers
BIO PRO SYC Powder	6	3	1-2	1-2	2

BIO PRO (C) Liquid	28	14	--	8-16	9
BIO PRO CMF Powder	--	--	8-16	--	--

How BIO PRO Saves Time, Cuts Costs, and Drives Profitability

BIO PRO helps streamline your operation by reducing animal health challenges and improving overall performance—leading to measurable gains in both time and income.

Operational & Cost-Saving Benefits:

- Reduces time spent identifying and managing sick animals
- Minimizes days in the sick pen, keeping cows productive
- Accelerates recovery and lowers severity of issues like cryptosporidiosis and coccidiosis
- Cuts treatment expenses by reducing disease incidence
- Lowers labor demands for care and health management
- Helps prevent mastitis, reducing associated losses and treatment costs
- Protects against mycotoxin-related performance drops
- Improves milk production efficiency, supporting better margins

BIO PRO is available in both Liquid & Powder Formulations

Liquid Cans

5 Litres, 10 Litres Cans

Powder Bags

25 KG's PP Bags

Supplement for Cattle Feeding only, Not for Medicinal Use / Human Use

BIO PHARMA
Elixir of Life

Manufactured & Marketed: M/S BIO PHARMA, Haryana, India
