

HydroPro (Rice Protein Hydrolysate)

For Food Protein Enrichment Applications

Product Description: HydroPro is a clean-label, plant-based rice protein hydrolysate engineered for excellent solubility, rapid digestibility and versatile functional performance. With a tailored peptide profile concentrated in the 1–5 kDa range, HydroPro delivers smooth mouthfeel, improved hydration, and robust emulsification across beverages, nutrition products, bakery, and savory systems.

Key benefits

- Superior solubility & clarity — dissolves readily in water; minimal haze/precipitate.
- Rapid digestibility — predominantly low-MW peptides absorb quickly
- Versatile emulsification & stabilization — supports oil-in-water systems such as dressings, sauces and RTD emulsions.
